Roblox was originally banned from Xbox Live due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

There are two kinds of issues with Roblox development. One is syntax issues which deal with how the code works and how to make it function correctly. The other one deals with data issues which involve working with saved variables in games. Since users can change data, they are prone to having issues in this area.

In this day and age, there are many ways that you can buy free robux. For example, you could perform a search on the internet for "get free robux" and see what comes up. I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? There are many games out there that aren't free like Minecraft, but at least they give you some sort of advantage. For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself. And it's not like Minecraft was designed with children in mind; it was created for adults.
