Please fix the bug that stops you from playing games and then when you log back in the game glitches and makes it start over again. It makes me very frustrated because I spend a lot of time on this app. So please fix this bug! Roblox is an amazing game but there are some issues with it. My main complaint is that when I play games so many people are rude to others but there's no way to report them or mute them and this to me makes Roblox not so fun anymore and sometimes boring because everyone else around me is just being mean when they don't have to be. There are so many cool things about the game I don't know where to begin. But the one thing that I love the most is that you can play with your friends and you can talk to them through out the game. Let's just get started shall we? I love this because it's so easy and simple. All you have to do is type in your username or email and it will find your account. Then when you are done playing a game and want to do something else click the log out button and you will be brought back to the main screen like when you first logged into roblox. This makes it easy to restart games or to go back to your profile. The first thing that I noticed right off the bat is that this app is a lot better than the one I had before. Because of this I have my hopes up for the future of roblox and how it will be in the years to come. This app gives you a ton of stuff but it leaves out some stuff so I decided to make a suggestion about fixing bugs and glitches with the app but not just bugs in general. What I really like about the app is that you don't have to rotate your phone. Sometimes when I play on roblox I have to get out of bed and turn my phone around because it's upside down because I was in bed. Thanks for eliminating that problem! This is a new feature for the game and personally I think that it is so much better than the old one. It shows you how many fans, bangs, and people are in each group you are in. This makes it easy to know how active you are on roblox.

In Roblox I am required to be patient with my friends, because most likely they will not be online when I want to play with them. Over the years, ROBLOX has used advertising to generate revenue for their company, which they generate through in-game purchases (microtransactions) or advertisements (which can be annoying for the players). In addition to this, they also generate revenue through selling virtual items (like the aforementioned Builders Club and ROBLOX Credit). The company has also released several games like their top

grossing game "Build a Buddy". ROBLOX has been criticized for its lack of funding from advertisers as well as allowing other companies to make games on ROBLOX. The company has been criticized for their children friendly ads which are designed to be easily visible by children but are very inappropriate for them which is seen as a breach of the COPPA (Children's Online Privacy Protection Act) and their end user license agreement, although ROBLOX has since changed its policy. The company also uses an "Ads on the Web" program where they can serve certain types of ads depending upon a player's age and location.
