ROBLOX is very similar to gambling. People who don't know better pay real money for fake game money that has no value. Children can be swindled out of all of their parents' hard earned money without realizing it's gone until mom/dad finds another credit card bill at the end of the month or worse.

I really like Roblox because I get to make friends with other users on the Internet that are my age and play games with me. Another thing I like about it is that you can play different games and see which ones you like, so it's very fun to me. I also think that the game has helped me develop a lot of social skills because you can talk to your friends using voice chat or text chat. You can tell them how you're feeling, what's wrong, etc. It's a game where there are a lot of different people from all around the world and they all have their own story. Another reason why I love the game is that you can really make new friends and you can play with them offline.

For me, I think that one of the most important skills that I have developed is patience. In Roblox I am required to be patient with my friends, because most likely they will not be online when I want to play with them. Posers are also another big part of the game where people pretend that they are someone else but if you tell them they can't do it then they will stop being so fake and start being their true selves again.

Good for improving cognitive function. There are a lot of games on Roblox that can actually help your child improve their cognitive function, such as games such as the "Maze" game which can increase their motor skills. This certainly makes it a better option than other games available, such as GTA 5!

There are already so many other games which really offer no value at all but still manage to rack up millions of dollars in profits. They manipulate players into becoming addicted to their games like gambling addicts by design. At least gambling junkies have the option to take a break and decide when they will spend money and get back to having fun again.

I love Roblox, but there are some things that I don't like. My favorite aspects of Roblox are that it's fun and easy to play with my friends online, and it has funny ways of making you laugh or feeling nervous. My least favorite aspect is that if you use your neighbor's computer (turn it on/jack in) you can't change your username or skin. Also, there are players who break laws such as swear words, so they get banned from Roblox for doing so. I don't think Roblox should be edited at all, but just taken off.

When there is an update that takes away all the content from one of the games I played, it's sad because I enjoyed it... And other people enjoyed it too.
